- U2** All-Terrain Performance Shoes

A1 Carbon Road Shoes

Lightweight · Asian wide fit · Dual dials · SPD-SL

262g per shoe (EU43) · EU38-45 · 3 colors

Vented sole

Maximized airflow for cooler feet.

100% carbon sole

Rigid sole for direct power transfer.

Scaled cleat position

Precision scale for perfect cleat placement.

Replaceable heel

Easily replaceable for extended shoe life.

Reinforced toe cap

Prevents scuffs and impacts.

Ventilation holes

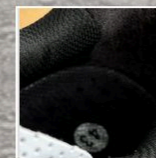

Perforated upper for continuous breathing.

Anti-slip heel lining

Secure heel hold for a more powerful upstroke.

Reflective heel

Enhanced visibility for safer night rides.

A2 Advanced Nylon Shoes

Road & MTB Dual Use · Asian Wide-Fit · Single Dial

297g per shoe (EU43) · EU38-45 · 2 colors ● ○

Vented sole

Mesh vents for cooler, drier feet.

Glass-fiber nylon sole

Stiff for power, flexible for comfort.

Road & MTB Dual Compatibility

Fits both road and mountain cleats.

Single dial

Precise micro-adjustment on the go.

Reinforced toe cap

Prevents scuffs and impacts.

Ventilation holes

Perforated upper for continuous breathing.

Anti-slip heel lining

Secure heel hold for a more powerful upstroke.

Reflective heel

Enhanced visibility for safer night rides.

A3 Cleat-Free Cycling Shoes

EU37-45 · 3 colors ● ○ ○

Maximum Pedaling Efficiency, Engineered for Endurance & Epics

Single dial

Quick, seamless micro-adjustment for a tailored fit.

Reinforced toe cap

Protects against scratches and everyday wear.

High-breathability upper

Perforated airflow mesh keeps your feet cool and dry.

Reflective heel

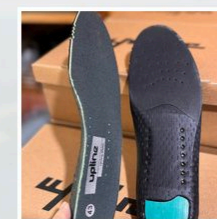

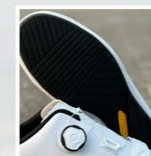

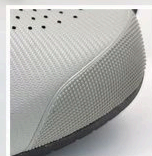

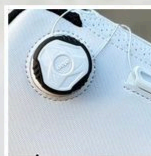

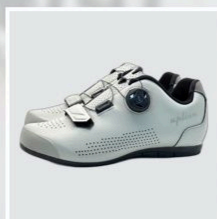

Enhanced visibility for safer night rides.

Stiff rubber sole
Optimized hardness to prevent foot fatigue during long rides.

Cleatless freedom
No cleats required—just hop on and ride any bike.

Walkable traction tread
Excellent anti-slip grip for sightseeing and dining.

Ergonomic arch-support insole
Highly breathable with premium 3D arch support for long-distance comfort.

U2 All-Terrain Performance Shoes

MTB & Indoor Spinning Dual-Use · Single Dial Fastening · High Grip

EU37-45 · 3 colors ● ○ ●

NEXT-GEN
COMING 2027

Dial fit system

Effortless, single-handed micro-adjustment.

Durable microfiber upper

High-strength material built for rugged terrains.

Reinforced toe cap

Prevents trail scuffs and unexpected impacts.

Anti-slip heel lining

Secure heel hold for powerful indoor spinning.

Reflective safety heel

Enhanced visibility for low-light environments.

Glass-fiber nylon sole

Stiff sole engineered for optimal power transfer.

Dual-cleat compatibility

Seamlessly switch between trail and indoor studio.

Walkable rubber tread

High-traction lugs for confident off-bike walking.

Vented sole construction

Air vents built into the base for active cooling.
